About CAF

We're developers who got tired of overpaying
merchant prices for materials. So we started
sourcing for ourselves — and ended up helping our
partners do the same. Now we supply second-fix
goods at or below trade prices, with no fluff, no fuss
— just solid gear, ready to go.

Unlike the big merchants, we don't carry bloated
overheads, fancy showrooms, or slow-moving stock
— so you're not paying for any of it. We keep it lean
so you can keep more of your margin.
